

Cooling unit 6H/IF

The 6H/IF cooling unit is a powerful cooling unit that has been specially developed for ARXIS welding power sources.

With its robust design and reliable cooling technology, the cooling unit is easy to install and operate.

Specification

Type	6H/IF
Compatibility	Welbee Arxis series
Pump type	Regenerative turbine electric pump
Supply voltage	400V 50/60Hz
Supply current	Max. 0,95A /50Hz ; 1,1A /60Hz
Cooling power @ 1l/min	1,2 kW
P(MAX):	0,45 Mpa (50Hz) / 0,55 Mpa (60Hz)
Tank volume / Required fill	5,5l / 4l
Protection	Flow meter
Conformity standard	IEC 60974-2
Temperature range	10 ~ 40 °C
Moisture range	20 ~ 80% (no condensation)
Storage temperature range	-10 ~ 60 °C
Storage moisture range	20 ~ 80% (no condensation)
External dimensions (WxDxH)	391mm x 197mm x 826mm
Mass	14kg
